## OUR CONCEPT

The Muse team has had deep passions with two of the most popular traditional menu creations since childhood memory: Thai and Sushi, which laid the foundation of the themed restaurant. The best way to have them is fresh from the chef's Pan (Thai) and chef's hand (Sushi) in order to preserve the juiciness and crisp of the freshest ingredients served.

## SUSHI

Fresh fish and seafood served at MUSE has been thoroughly prepared using only the freshest ingredients from approved seafood suppliers of New England largest fish market. Fish available from our supplier does not only provide fish of the local regions, but also fish caught worldwide. It is certain that top priorities are given to the merchant for 1st-grade fish selection upon each visit where the fresh seafood can be delivered intraday through the door of MUSE as often as 5 days per week. Fish being caught is typically divided into two categories: fishing and netting. The former is actually a preferred method where it could preserve the condition of the fish caught close to perfect whereas the latter could cause major damages to the appearance of the fish which leads to the price and quality drop. Fish served at Muse is typically caught by fishing.

Most Popular sushi item is Otoro. Otoro is the fattest belly part of Blue fin Tuna. The fish can be found in the colder water region of Atlantic Ocean and Southern Europe. Being known as the most expensive fish in the world, the auctioned price of a 400kg Blue fin Tuna can be as high as \$350,000. Otoro can be pre-ordered at Muse one week in advanced to assured that you are getting the best selection of the belly.

## THAI

Muse and Our Chefs understand that healthy eating is a key component in any wellness offer. Our goal at Muse is to deliver nutritious, freshly prepared meals to our customer. Muse Thai selections are known for its enthusiastic use of fresh herbs and spices. Common herbs include cilantro, lemongrass, Thai Basil and Mint. Some other common flavors in our cooking come from ginger, galangal, tamarind, turmeric, garlic, soy beans, shallots, white and black peppercorn, Kaffir lime leaf and, of course, chilies. These freshly prepared key ingredients at MUSE are commonly consumed by many interested in recovering from ill health or specific health conditions or by those interested in optimizing their already good state of health.

Here at MUSE, Thai food isn't about simplicity. It's about the juggling of five fundamental taste senses (hot and spicy, sour, sweet, salty, and sometimes bitter) in every each dish or the overall meal to create a harmonious balance finish.

Most Popular Thai items include: Tom Yum, Green Curry, Massaman Curry, Gaprow, Somtum, Pad See U, Pad Thai, Thai Ice Tea, Mango with Sweet Sticky Rice.
